**FOR IMMEDIATE RELEASE**

**April 3, 2017**

## **THE FUTURE OF INDIE GAME MAKERS**

The Western Development Museum is thrilled to partner with the University of Saskatchewan Department of Computer Science on **The Future of Indie Game Makers**, student demo day on Saturday, April 8.

Over the span of 4 months, Computer Science students enrolled in the Game Design Workshop course (CMPT 406) were organized into four teams and tasked to each create a complex video game using one of four different platforms: PlayStation, Xbox Kinect, Virtual Reality, and mobile devices. Each team is made of 8 - 15 team members, where they built a game of sufficient sophistication to warrant potential publication on an app or software store.

You are invited to interact and play with these student projects and learn more about the technical and design challenges they faced. Maybe one of their games will be featured in future exhibits on video games!

While there, don't miss the *Game Changers* - highlighting the past, present and future of video games!

**Saturday, April 8, 2017**

**1:00 - 5:00 pm**

**Western Development Museum - Saskatoon  
2610 Lorne Avenue**

**Regular Museum admission applies.**
